Points

1. Click Name Search or even easier the "NAME" button to open the "SEARCH BY PLACE NAME" facility.

2. Load the required data base file (obtain these files from the E-TREK Library)

3. Type in the required road name only (not the word road or lane, etc).

4. OziExp will display a list of all maps you have that this road appears on.

Area Calculation - Track 1

Area 1119.6 Hectares Clear ? Close

1. Click "AREA CALCULATION" to open this dialogue box

2. By clicking on your screen, draw a closed area like the sample

3. OziExplorer will shade and calculate the size of that area

Search by Place Name
