

Why Set Up Employees on SmarterScreen?

The simple answer is to save you money which makes you money!

The detailed answer...

1. **Fulfils all your legal obligations** which really doesn't mean much unless something happens, then you might just save many \$1,000s.
2. **Provides electronic access to Safety Data Sheets** (no need to print them anymore) and the electronic version is always up to date.
3. **Provides electronic access to Safe Work Method Statements** (no need to print them anymore) and the electronic version is always up to date.
4. **Provides electronic access to Safe Work Procedures** (no need to print them anymore) and the electronic version is always up to date.
5. **Provides electronic access to Plant Risk Assessments** (no need to print them anymore) and the electronic version is always up to date.
6. **Plant Operators can do ONLINE Plant Pre-Start Check Lists and sign on screen when completed** (no need to be looking for the paper pad on the floor covered in mud and all copies are electronically archived for all time).
7. **Supervisors can do ONLINE Toolbox Meetings with everyone signing on the screen** (no need to be looking for the paper pad on the floor covered in mud and all copies are electronically archived for all time).
8. **Can view Management Policies, WHS Procedures, Environment Procedures** and should something go wrong can access all the emergency names and phone numbers.

It is a new digital world. Time to get with the program. Unfortunately for those in marginal phone coverage areas this doesn't yet work for you however we are seeking a cost-effective solution to this dilemma.
